

BREATHALYSER®

DRINKING WATER ADDITIVE

Breathalyser® Drinking Water Additive is a pleasant-tasting solution for effective at-home dental hygiene care. It helps maintain oral health while reducing the sources of foul smelling breath. Unlike direct application products, it is simply added to the pet's drinking water each day. Safe and effective for dogs & cats.

Features:

- ◆ No brushing required
- ◆ Reduces sources of halitosis, does not just mask bad breath
- ◆ Easy-to-use for busy multi-pet households and elderly pet owners
- ◆ Improves at-home dental compliance
- ◆ Reformulated with NO Xylitol

Directions:

- Use **Breathalyser®** treated drinking water on a daily basis for best results. Shake before using. Light sedimentation is normal.
- Large Dog Breeds - Add 2 capfuls to at least 1 quart of drinking water daily (10ml / liter).
- Small Dog Breeds and Cats - Add 1 capful to a minimum of 1 pint of drinking water (5ml / 500ml).
- Mix fresh **Breathalyser®** solution daily.

Packaging: 250 ml and 500 ml bottles, 12/case
