

# CLOTISOL®

## BLOOD CLOTTING SUSPENSION

**Clotisol®** is an original formula blood clotting suspension used as an aid to stop bleeding in animals caused by minor cuts and wounds. **Clotisol®** can be used effectively in nail trimmings, tail docking, ear cropping and on other minor bleeding sites.

### Features:

- ◆ Effective Hemostat – Stops Most Minor Bleeding Immediately
- ◆ Protectant – Acts as “First Aid” Application While Covers and Protects Lesions
- ◆ Proven – Original Formula Used with Success for Years – Attractive Shelf Container
- ◆ Multiple Uses – Nail Trims, Beak Trims, Ear Crops, Minor Cuts & Wounds, Tail Docks, Dogs & Cats, Birds and Exotics
- ◆ Versatile – Used by Veterinarians, Groomers, Aviaries, Breeders, Pet Owners

**Directions:** Shake well before using. To stop bleeding, apply a liberal amount directly to wound. If bleeding does not stop, consult a veterinarian.

**Ingredients:** Ferric Sulfate – coagulant properties  
Aluminum Sulfate – aids in hemostasis  
Collagen Protein – aids in wound closure  
Chlorxyenol – antimicrobial properties

Packaging: Spill proof 2 oz. plastic, squirt top bottle.
